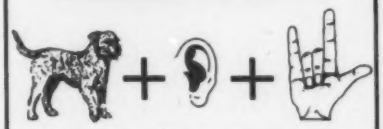
SILENT NIGHT. SILENT DAY.



Most of us welcome a moment or two of silence.

But for nearly 18,000,000 deaf Americans, silence is a prison. They can never hear a smoke or fire alarm, a baby crying, doorbell or telephone.

To a deaf person, a trained Hearing Ear Dog is the difference between a nearly normal life and another silent night and day.

Dogs for the Deaf rescues unwanted dogs from shelters — often just before they are "put to sleep" — and trains them to respond to the critical needs of deaf people. A dog hears the noise, touches the deaf person with a paw and leads him/her to the sound.

Certified Hearing Ear Dogs are allowed the same access rights to schools, transportation, restaurants, public buildings, hotels and motels as other Guide Dogs. Hearing Ear Dogs can be identified by a distinctive blaze orange collar and leash.

Dogs are delivered by a trainer free of charge to qualified deaf applicants throughout the United States by non-profit, tax-exempt *Dogs for the Deaf*. The trainer spends a week transferring the dog's affection and work habits to the new owner; and, at the same time teaches the recipient how to care for his/her new "ears."

You can help rescue dogs and, at the same time provide this miracle of loving paws by supporting *Dogs for the Deaf*.
